

Brand Guidelines

Version 3.0 · January 2026

Noah Fischer · 20 January 2026 · WE-MC-GDL-0003

Version 3.0 · Approved by the Executive Board on 20 January 2026 · Owner: Noah Fischer, Marketing & Communications · Design: Ravi Shah

1. Who we are

Weyland Energy GmbH develops, builds and operates wind, solar and storage assets across Northern Europe. We run 1,100 MW of operating capacity from offices in Hamburg, Edinburgh and Copenhagen and are building the 480 MW Harrow Bay Offshore Wind farm. Our brand has to work on a planning notice in a village hall, on a lender presentation and on the side of a crew transfer vessel.

Mission. We develop, build and operate wind, solar and storage assets that deliver affordable clean power to communities across Northern Europe.

Tagline. *Clean power, built to last.* – use it as a sign-off, never as a headline, and never translate it.

2. Brand personality

We are	We are not	How it shows
Grounded	Hype-driven	We quote real numbers (MW, GWh, homes) and say when something slips.
Long-term	Opportunistic	We talk about 30-year assets and neighbours, not quarterly wins.
Warm	Corporate-cold	Real people from our sites, first names, plain words.
Precise	Technical for its own sake	One clear figure beats five vague ones.

3. Logo

The Weyland logo combines a rising sun over two waves – sun and sea, the sources of our energy – with the lower-case wordmark *weyland* and the line ENERGY. The symbol and wordmark are a fixed unit; they are never redrawn, re-coloured or re-spaced. Master artwork is kept in *Logos/Weyland Logo Master Artwork.odg*; use the exported SVG/PNG files for daily work.

Variant	File	Use on
Primary (horizontal)	Weyland Logo Primary.svg / .png	White and Mist backgrounds – default choice
Stacked	Weyland Logo Stacked.svg	Square formats, social avatars, roll-ups
Reversed	Weyland Logo Reversed on Deep Sea.svg	Deep Sea backgrounds, title slides
White	Weyland Logo White.svg	Photography, Teal backgrounds,

		vessel livery
Mono black	Weyland Logo Mono Black.svg	Fax-like, one-colour print, engraving, stamps
Symbol	Weyland Symbol.svg	Favicons, app icons, PPE stickers (min. 8 mm)

3.1 Clear space and minimum size

Keep a clear space around the logo equal to the height of the sun (x) on every side. Minimum width of the horizontal logo is 30 mm in print and 120 px on screen; below that use the symbol alone.

3.2 Don'ts

- Do not stretch, rotate or add effects (shadows, outlines, gradients).
- Do not place the primary logo on photographs – use the white version on a calm area of the image.
- Do not change the colour of the wordmark or set it in another typeface.
- Do not lock up the logo with project names; project names go in the headline, not in the logo.
- Do not use the pre-2024 'Weyland Energy' logo – see [_Archive](#) for reference only.

4. Colour

Deep Sea carries the brand. Teal and Sun are accents – Sun is the colour of key figures and the symbol, never of body text. As a rule of thumb: 60 % Deep Sea and white space, 25 % Mist, 10 % Teal, 5 % Sun.

Colour	HEX	RGB	Role
Deep Sea	#0B3C5D	11 60 93	Primary – headlines, title bars, logo
Teal	#1FA2A6	31 162 166	Accent – links, highlights, waves
Sun	#F2B134	242 177 52	Highlight – key figures, charts, symbol
Mist	#EEF3F6	238 243 246	Light backgrounds, table stripes
Slate	#4A5A68	74 90 104	Body text, captions, UI grey
Coral	#E4572E	228 87 46	Warnings, negative values (sparingly)
Leaf	#5BA65B	91 166 91	Positive values, nature topics

Coral is reserved for warnings and negative values in charts; Leaf for positive values and nature topics. Chart series follow the order Deep Sea, Teal, Sun, Slate, Coral, Leaf.

5. Typography

We use **Arial** everywhere – in Microsoft Office, LibreOffice, e-mail and on the website – so that documents look the same on every machine and in OpenCloud previews. Headlines in Arial Bold, Deep Sea; body text 10.5 pt Arial Regular in near-black (#22303C); captions 8.5 pt italic in Slate.

Element	Print	Slides	Web
H1 / title	22 pt Bold	40 pt Bold	40 px Bold
H2	16 pt Bold	28 pt Bold	28 px Bold
Body	10.5 pt	18 pt	17 px
Caption	8.5 pt Italic	12 pt	14 px

6. Photography

Our pictures show real places and real people doing real work. See the separate *Photography Guidelines* for the full brief; the short version: natural light, people in correct PPE, landscapes with the asset in context, no staged handshakes.

Reference image: offshore turbine from sea level, natural light (Photography/Examples).

7. Templates and where to find them

- *Templates/Letter Template.odt* – letters on letterhead, address window for DL envelopes.
- *Templates/Presentation Template.odp* and *.pptx* – 16:9, eight master layouts.
- *Templates/Report Template.docx* – reports, studies and board papers with document number field.
- *Templates/Memo Template.docx* – internal memos and decision papers.
- *Email Signature* – HTML and plain-text signature, updated for the Hamburg address Am Sandtorkai 41.

8. Approval and contact

Anything external that uses the logo – partner press releases, co-branded material with Halden Turbine Systems or Arcturus Steel, event stands – is checked by Marketing & Communications before release. Contact Noah Fischer or Ravi Shah; turnaround is two working days.
