## What people told us

| Theme                                  | Mentions |
|----------------------------------------|----------|
| Construction traffic on Mill Lane      | 44       |
| Glare for nearby homes                 | 38       |
| Visual impact from the public footpath | 35       |
| Support for local clean energy         | 31       |
| Skylark nesting habitat                | 21       |

*Top five themes*

Of respondents who answered the question on overall view, 42 % were supportive, 21 % neutral and 37 % opposed.

## Our response

- Commission an independent glint and glare study
- Explore a haul road from the B4127
- Commission a breeding bird survey with focus on skylark
- Widen the footpath FP14 corridor

*Consultation #1 at Millbrook Village Hall*
