

Management Letter – Audit of the Financial Statements 2025

Keller & Rowe Wirtschaftsprüfung – addressed to the Executive Board

Jonas Richter · 08 April 2026

Dear Dr. Okafor, dear Mr. Richter,

we have completed our audit of the consolidated financial statements of Weyland Energy GmbH for the year ended 31 December 2025 and issued an unqualified audit opinion on 17 March 2026. In the course of the audit we noted the following matters, which we would like to bring to your attention. None of them is a significant deficiency in internal control.

#	Area	Observation	Rating
1	IT general controls	Quarterly user access reviews in the ERP are not documented consistently.	Medium
2	Manual journals	Three manual journal entries > EUR 1 m posted without second approval.	Medium
3	Vendor master data	Changes to supplier bank details not independently verified by call-back.	Medium
4	Capitalisation Harrow Bay	Documentation of IAS 16 / IAS 38 criteria for development costs could be improved.	Low
5	Leases	IFRS 16 assessment for the Port of Eastholm quay lease not yet finalised.	Low
6	Revenue estimates	REGO revenue estimate based on manual spreadsheet without version control.	Low

Key audit matters

- Capitalisation of Harrow Bay costs before FID (EUR 498 m at year end)
- Impairment test of the onshore wind portfolio (no impairment)
- Decommissioning provisions (EUR 61 m)

We thank your team, in particular Marcus Bell and Anna Schulte, for the excellent cooperation.

Hamburg, 8 April 2026
