

Memorandum of Understanding – Green Hydrogen Pilot

Weyland Energy GmbH and Arcturus Steel AG

Priya Nair · 18 March 2026 · WE-MOU-2026-002

Memorandum of Understanding between **Weyland Energy GmbH**, Am Sandtorkai 41, 20457 Hamburg ("Weyland") and **Arcturus Steel AG** ("Arcturus"), together the "Parties".

1. Purpose

The Parties intend to cooperate on the development of a green hydrogen pilot plant of about 5 MW electrolyser capacity at the Port of Eastholm (the "Pilot") to supply hydrogen to the Arcturus rolling mill at Eastholm for the partial replacement of natural gas in its reheating furnace.

2. Scope of cooperation

- Joint feasibility study in 2026, led by Weyland, with Arcturus providing demand data, site access and furnace engineering input.
- Joint preparation of an application for public funding (in particular the EU Innovation Fund).
- Good-faith negotiation of a hydrogen offtake agreement if the feasibility study is positive.

3. Roles

Party	Responsibilities
Weyland	Development, design, financing, construction and operation of the electrolyser; renewable power supply
Arcturus	Offtake of hydrogen; burner modifications and pipeline on Arcturus premises; demand forecasts

4. Costs

Each Party bears its own costs. The external costs of the feasibility study (estimated EUR 180,000) are shared 60 % Weyland / 40 % Arcturus.

5. Confidentiality

The confidentiality agreement dated 9 February 2026 applies to all information exchanged under this MoU.

6. Non-binding nature

This MoU is not legally binding, except for clauses 4, 5, 6 and 8. It does not oblige either Party to enter into any further agreement.

7. Term

This MoU expires on 31 December 2027 unless replaced earlier by definitive agreements.

8. Governing law

German law. Place of jurisdiction: Hamburg.
