

Bilateral Connection Agreement – Summary

Harrow Bay Offshore Wind · NordGrid Transmission NGT-BCA-2023-0088

Priya Nair · 16 October 2023

Executive summary of the bilateral connection agreement NGT-BCA-2023-0088 between NordGrid Transmission and Harrow Bay Offshore Wind Ltd (a Weyland Energy company), signed on 13 October 2023. The full agreement (214 pages) is held by Legal & Contracts.

Term	Agreed
Connection site	Harrow Bay East 400 kV substation (NordGrid), new bay and 400/220 kV transformers
Transmission entry capacity	480 MW, in two stages: 240 MW from 1 Sept 2027, 480 MW from 31 Mar 2028
Onshore works by Weyland	Onshore substation Harrow Bay East (220 kV), 2 × 220 kV export cables to the coast
Securities	EUR 12.6 m (letter of credit, Hanseatic Infrastructure Bank)
Liquidated damages (NordGrid delay)	Capped at 25 % of annual transmission charges
Compliance	Grid code compliance testing for each turbine string before full TEC
Termination	Termination amounts reduce once user commitment milestones are met

Stage 1 energisation (1 Sept 2027) aligns with first power on 30 Sept 2027. Export cable 2 delay (HB-RISK-017) does not affect stage 1 – see Energisation Plan.
