

People Report Q3 2026

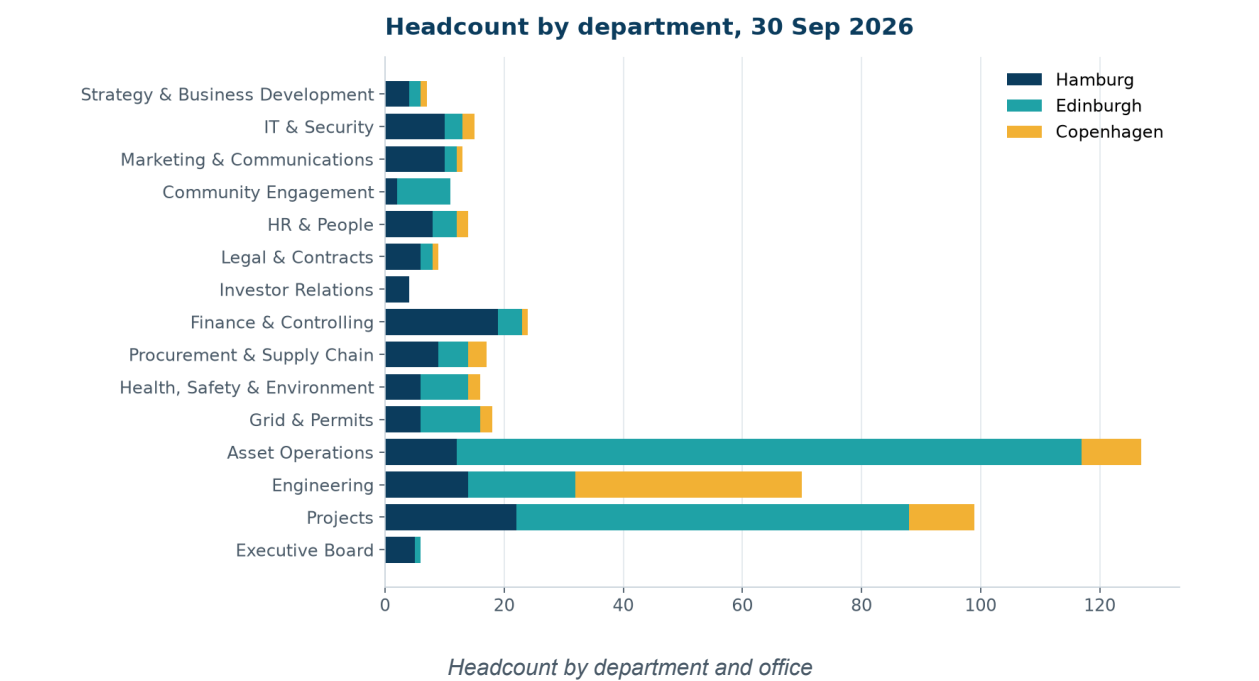

Headcount, hiring, attrition and absence

Julia Hoffmann · 02 October 2026 · HR-RPT-2026-Q3

Summary

Weyland reached **450 employees** on 30 September 2026 (+29 since January, +6.9 %). Growth came almost entirely from the Harrow Bay construction organisation in Edinburgh and the site teams at Kestrel Ridge. Voluntary attrition over the last twelve months is 6.8 % – below the 2025 value of 8.1 % and well below the UK renewables benchmark of ~ 11 %.

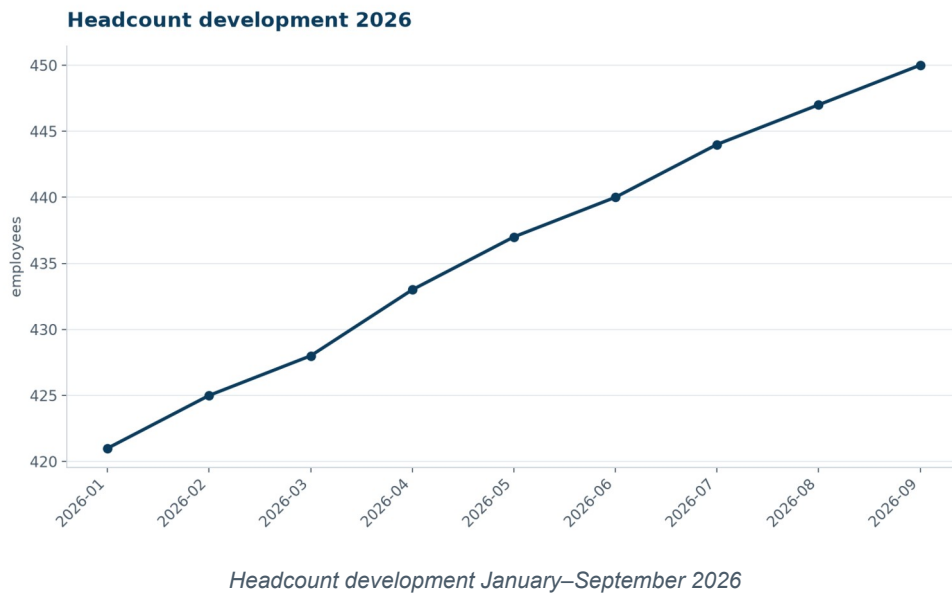

KPI	Q3 2026	Q2 2026	Target 2026
Headcount (heads)	450	440	455
FTE	430.7	421.1	435
Open positions	27	31	–
Time to hire (days, median)	47	52	≤ 45
Voluntary attrition (LTM)	6.8 %	7.2 %	≤ 8 %
Sickness rate	3.4 %	3.1 %	≤ 4 %
Women in leadership	31 %	30 %	33 % by 2027
Training hours per FTE (YTD)	21.5	14.2	30

Hiring

31 people joined in Q3, among them 12 for Harrow Bay (offshore construction, marine coordination, HV engineering) and 7 wind technicians for Kestrel Ridge. The hardest roles to fill remain HV

commissioning engineers and SCADA specialists – both are now also advertised in Denmark through the Copenhagen engineering centre.

Attrition

Seven voluntary leavers in Q3; three moved to offshore wind developers with higher site allowances. We propose to review the offshore allowance as part of the 2027 salary review.

Outlook Q4

- Engagement survey actions rolled out per department (deadline 30 November).
- Salary review 2027 kick-off with Finance on 20 October.
- Works council negotiations on the new working time recording agreement continue.
- UK payroll moves to Thistle Payroll Services on 1 October 2026.
