

Notice to Mariners No. 2026-14

Harrow Bay Offshore Wind – construction activities

Elena Márquez · 25 September 2026 · HB-NTM-2026-14

Notice to Mariners No. 2026-14 · Issued 25 September 2026 by the Harrow Bay Marine Coordination Centre on behalf of Weyland Energy GmbH. This notice supersedes No. 2026-13.

1. Construction activities

Mariners are advised that construction of the Harrow Bay Offshore Wind farm continues. The jack-up vessel MV Sea Atlas (call sign 5BXT7) is installing monopile foundations at the positions listed below. Piling may take place 24 hours a day.

Position	Latitude	Longitude	Activity	Period
HB-A14	53°56.36' N	001°14.96' E	Monopile installation	26 Sep – 3 Oct
HB-B01	53°56.58' N	001°02.36' E	Monopile installation	3 Oct – 10 Oct
HB-B02	53°56.71' N	001°03.37' E	Monopile installation	8 Oct – 15 Oct
HB-OSS	53°57.48' N	001°08.52' E	Hook-up and commissioning	ongoing

2. Safety zones

A 500 m safety zone is in force around every installation vessel and every structure under construction. Mariners are requested to keep well clear and to contact the guard vessels on VHF channel 16 or 72.

3. Guard vessels

Vessel	Call sign	Area
Ocean Sentinel	MGFR8	North-west of string A
Bay Warden	2HJK4	Export cable corridor KP 0–31

4. Installed structures

13 monopile foundations with transition pieces (HB-A01 to HB-A13) and the offshore substation HB-OSS are installed. All installed structures are marked with yellow flashing lights (FI Y 2.5s) and AIS AtoN.
