

Monthly Performance Report – December 2024

Kestrel Ridge Wind Farm (75.6 MW)

David Chen · 09 January 2025 · KR-OPS-RPT-2024-12

1. Summary

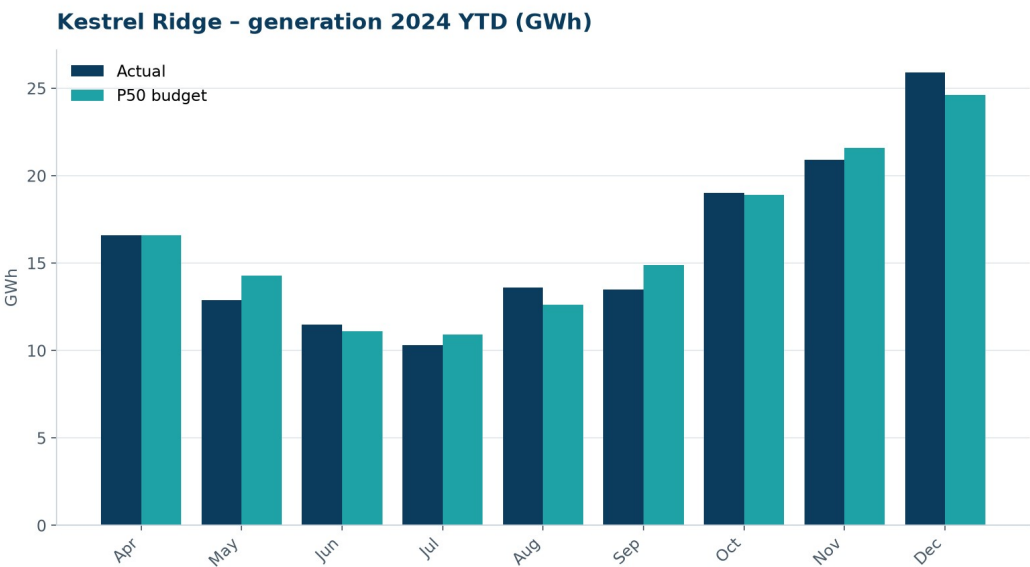

Kestrel Ridge generated **25.9 GWh** in December 2024, 5.3 % above the P50 budget of 24.6 GWh. Availability fell to **96.1 %**, below the contract target of 97.0 %. Mean hub-height wind speed was 10.2 m/s, above the long-term monthly mean of 9.6 m/s.

Two severe storms passed over the site. On 7 December the 132 kV connection was lost for 9 h 20 min (NordGrid Transmission fault), and 46 high-wind cut-out events were recorded. No damage was found in post-storm inspections.

2. Production and key figures

KPI	December 2024	Budget / target	YTD 2024	YTD budget
Net generation (GWh)	25.9	24.6	144.2	145.5
Time-based availability	96.1 %	97.0 %	96.5 %	97.0 %
Capacity factor	46.0 %	43.7 %	28.9 %	—
Mean wind speed at hub height (m/s)	10.2	9.6	—	—

Source: Kestrel Ridge SCADA, revenue meter at 132 kV point of connection. Budget = P50 (2024 post-construction yield assessment).

Monthly generation vs. P50 budget, 2024 year to date

3. Availability and downtime

Total turbine downtime attributable to the contractor amounted to 60 turbine-hours for the top events listed below. Grid-related downtime is excluded from contractual availability.

Turbine	Event	Downtime (h)
T-14	converter fault – IGBT module replaced	39
T-15	hydraulic oil leak at rotor brake caliper	10
All	loss of 132 kV grid connection (NordGrid Transmission fault)	9
T-17	yaw brake pad wear – pads replaced	8
T-18	anemometer heater failure – sensor replaced	3

Top downtime events of the month (SCADA event log, reviewed with Highline Wind Services).

4. Maintenance

- 24 corrective work orders closed, 1 still open at month end.
- Site access track inspected; two drainage culverts cleared after heavy rain.

5. Health, safety and environment

Indicator	Month
Hours worked on site (Highline + Weyland)	2,618
Lost time injuries	0
First aid cases	0
Near misses reported	0
Safety observations	13
Environmental incidents	0

No environmental incidents. Bird carcass searches are paused for the winter (season March–November).

6. Outlook

We will review the downtime events above with Highline in the monthly O&M meeting and track the recurring pitch faults.

Prepared by Sara Lindgren (Performance Analyst); reviewed by Ben Okoye (Site Manager) and David Chen (Asset Operations Manager).
