

Settlement of Warranty Claim – T-07 Gearbox

WE-CON-2023-015 / incident KR-INC-2026-003

Priya Nair · 20 March 2026 · LEG-LTR-2026-019

Between Weyland Energy GmbH and Highline Wind Services, regarding the gearbox bearing failure of turbine T-07 at Kestrel Ridge Wind Farm on 14 January 2026 (incident KR-INC-2026-003).

Agreed terms

- The gearbox exchange (completed 6 February 2026) is covered by the component warranty; no cost to Weyland.
- Highline credits availability compensation for 23 days of downtime, calculated at 1,520 MWh lost production.
- Highline will inspect main bearings on T-01 to T-18 by endoscopy before 30 June 2026.
- Each party bears its own legal costs. The claim is fully and finally settled.

For Weyland	For Highline Wind Services
