

# Media monitoring report

Q3 2026 (July–September)

Noah Fischer · 02 October 2026

## Summary

Weyland appeared in **175 articles** in Q3 2026 (Q2: 128), with a potential reach of 41 million. 53 % of the coverage was positive, 40 % neutral and 7 % negative. Our share of voice in trade press against five peer developers was 17 % (Q2: 13 %), just below the Powering the North target of 18 %.

Coverage by month and sentiment.

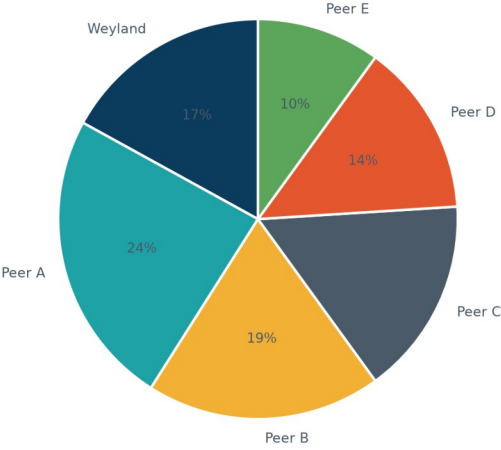

## What drove coverage

| Topic                                | Articles | Tone               | Comment                                             |
|--------------------------------------|----------|--------------------|-----------------------------------------------------|
| Offshore substation topside (19 Aug) | 38       | Positive           | Video picked up by three trade titles               |
| North Sea Energy Summit / keynote    | 41       | Positive           | Keynote quoted in Hamburger Wirtschaftsblatt        |
| Export cable 2 delay (HB-RISK-017)   | 14       | Neutral / negative | Holding statement used 3×; no follow-up after 5 Aug |
| Arcturus PPA (follow-up features)    | 19       | Positive           | Steel Times Europe feature on green steel offtake   |
| Millbrook consultation #3            | 12       | Mixed              | Local concerns on Mill Lane traffic and glare       |
| Hydrogen feasibility study           | 9        | Positive           | Short news items                                    |
| Recruiting / Powering the North      | 22       | Positive           | Mostly LinkedIn-driven online coverage              |

|       |    |         |  |
|-------|----|---------|--|
| Other | 20 | Neutral |  |
|-------|----|---------|--|

Share of voice

Share of voice Q3 2026 - trade press, six developers

Share of voice among six developers, trade press only.

Issues to watch

- Millbrook: the Millbrook & District Echo has run two letters opposing the scheme; expect more before the council decision.
- Cable delay: trade press may revisit HB-RISK-017 when cable lay starts in 2027.
- Summit follow-up: two interview requests with Dr. Amara Okafor pending (Nordic Energy Journal, Energie & Markt).
